

# Gallery Gardens

## Upgrade Consultation

In late 2019 Council asked you what the current issues are and what you would like improved to help inform the concept plan to identify upgrades.

**80%** of respondents visit Gallery Gardens in it's current state

**39%** visit the park with children

The main reasons respondents don't visit or use Gallery Gardens (often or at all) are due to facilities that are unsuitable and poor quality

Your top priorities for preferred upgrades are:

New play equipment

Additional shading & Seating

New landscaping

Resurface tennis courts\*

\*During face-to-face consultations at Gallery Gardens and Picasso Shops, a considerable portion of the feedback identified the need to resurface the tennis courts due to the uneven ground and drainage issues.

YOU ALSO HAD SOME GREAT IDEAS FOR COUNCIL TO FOCUS ON:

NEW PICNIC AREAS AND BUBBLER

MORE SIGNAGE

CREATE WALKING TRAIL LINKS

NEW LIGHTING AND FENCING

PROMOTE FLORA AND FAUNA
