

# SHANNONS Paddock MASTERPLAN

## DRAFT CONCEPT PLAN

### LEGEND

- 1** Proposed naturalisation of Finlaysons Creek. Existing concrete canal to be 'de-channelised' to form naturalistic drainage swale with wetland planting.  
Note: Subject to further design, approvals and Sydney Water asset renewal program.
- 2** Bridge crossing.
- 3** Outdoor exercise equipment/ fitness stations.
- 4** 3m wide cycleway (path) including lighting. Cycleway to form part of the proposed 'Finlaysons Creek Trail' connecting Shannons Paddock to Wentworthville Station and beyond.
- 5** Pedestrian circuit path/ fitness loop with distance markers connecting outdoor exercise equipment/ fitness stations.
- 6** Lawn area/ kick-about space for informal sports and recreation.
- 7** Constructed wetland to collect and treat stormwater.  
Note: Subject to creek naturalisation works.
- 8** Sheltered picnic and BBQ areas of different sizes to accommodate small gatherings to large family events.
- 9** Garden beds and planted buffer areas to provide separation between areas of different program within the park and adjacent properties.
- 10** Pedestrian pathways.
- 11** Open community lawn area
- 12** Proposed new district playground with imaginative play and nature play spaces for a variety of age groups. Refer to detailed concept plan.
- 13** Proposed toilet facility associated with playground (final location TBC).
- 14** Existing trees of high significance to be retained.
- 15** New entry wall and planting at Darcy Road .
- 16** Improved intersection at Darcy Road and Briens Road to provide better connection between Shannons Paddock and Milsons Park.  
Note: Subject to further design and traffic approvals.
- 17** Park bench seating
- 18** Existing landscape to be retained

# SHANNONS PADDOCK PLAYGROUND UPGRADE

## DRAFT CONCEPT PLAN

### LEGEND

- 1 Concrete footpath.
- 2 Brick paved picnic area with shelter, picnic tables, bins, and drinking fountain.
- 3 Existing trees to be retained. All works undertaken within tree protection zone to present minimal disturbance to root systems.
- 4 Proposed native mass planting around nature play area.
- 5 Nature play area comprised of cubby houses, balance obstacles, imaginative play elements, natural logs, and sandstone blocks
- 6 Triple swing with basket swing, regular swing and infant swing
- 7 Play tower on rubber softfall base to reference historical brick, tile and ceramics factory.
- 8 Suspension bridge connection to secondary softfall mound with integrated slide.
- 9 Large rope climbing frame with slide
- 10 In ground trampolines
- Extent of Stage 1 Upgrade Works
- 11 Future playground expansion including toilet facility as additional funding sources become available
