PROPOSED PARK IMPROVEMENTS

A **BMX PUMP TRACK**
New youth facility to provide physical recreation opportunities within Sue Savage Reserve. The facility will be designed to cater for skateboards, BMX and scooters to ensure suitability for a wide range of age groups and users.

B **SKATE PARK**
New youth facility will be created to provide physical recreation opportunities for older children within Sue Savage Reserve. The facility will be designed to cater for skateboards, BMX and scooters to ensure suitability for a wide range of age groups and users.

C **PARKING**
Proposed 90° off-street car parking lot. Includes 39 proposed parking bays and 4 accessible parking bays with a pathway connection to the existing path network.

D **FITNESS EQUIPMENT**
Proposed fitness equipment. One fitness station with a range of equipment to enable a full body workout.

E **AMENITIES BUILDING**
Proposed amenities building. Provision for 1 accessible cubicle / change room and 3 ambulant cubicles. Surrounding works include 2 x park shelters with picnic seating settings and landscape feature planting.
