- 3.5. Private memorials are not permitted, to ensure consistent regulation and maintenance, preserve public access and use, adhere to environmental and regulatory guidelines, and address legal and safety concerns.
- 3.6. Memorials will have minimal impact on natural values and visual amenity.
- 3.7. Council will carefully consider needs of all public open space users along with planned future works within its reserves and public areas, before determining whether the applicants preferred location is suitable.
- 3.8. No additional memorials will be considered to commemorate an individual, group, organisation or event that is already memorialised.
- 3.9. Memorials commemorating the death of animals are not permitted.
- 3.10. Memorials for individuals will only be approved posthumously requiring a least 12 months after the death of the individual, to allow for historical perspective and evaluation of significance criteria, consistent with Geographical Names Board (GNB) '*Guidelines for determination of place names*'.
- 3.11. Commemorative works or memorials recording the names of persons convicted of an Indictable Offence will be removed, where practicable.
- 3.12. Any memorial that recognises as being in place before the implementation of this policy, or any existing memorial known to the City of Parramatta to have been in situ prior to the date of commencement of this policy, or where the proponent for an existing memorial can demonstrate that the memorial has been in situ prior to the commencement date of this policy, will be allowed to remain in line with the Commemorative Works and Memorials Policy.
- 3.13. The City of Parramatta does not guarantee the permanent retention of any memorial, plaque, or memorial infrastructure that lacks heritage value. Generally, a plaque or memorial will be retained in place for as long as is practicable, with the following exceptions:
  - the area in which the item is sited is to be redeveloped
  - on-going maintenance costs of the memorial are prohibitive
  - the plaque or asset to which it is attached has reached the end of its useful life.
